

## Doctoral Programs in English

Would you like to study for a doctorate in Bavaria, but don't know where to start? This list offers you a first overview of structured PhD programs in Bavaria. These programs are particularly attractive for international applicants, as they often have an international or interdisciplinary focus and are frequently conducted in English or other foreign languages.

During the PhD program you will receive intensive supervision from a team of university professors. This arrangement allows most doctoral candidates to complete their PhD programs within three years. In addition, graduate schools frequently offer program-specific scholarships and paid PhD positions for research associates. If you would like to receive further information on the individual programs listed, please contact the relevant university directly.

If the particular subject area you are interested in is missing from the list, don't worry! In Bavaria, most doctoral candidates take an individual approach to suit their specific needs. If you choose to pursue this "traditional" route, you can apply at any university department or facility to conduct your research and ask a professor to supervise your work on a one-to-one basis.
